Dear Mr. Braverman:

On behalf of the SGO membership, we wish to extend a hearty thanks and congratulations on your well-received keynote address at the recent SGO Annual Meeting. This was such a welcome balance to all the clinical information absorbed by our attendees. Humor is a valuable, sometimes overlooked commodity in our profession, and Mr. Braverman not only had us laughing but gave us fresh insights into how we can implement a humorous perspective as part of our communication tool kit, to make our work more rewarding for ourselves and our patients.

We fully appreciated your special contribution.

Wishing you all the best,
